

Master ship- Taking charge of change

By Pip Oxlade- The Spiritual Success Mentor

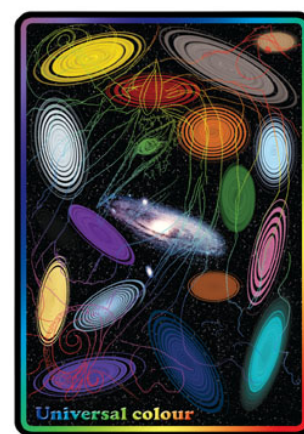

I am very excited to share my practical “soulful” and colourful tips to help you unravel those little interesting things that crop up in life that leave you wondering **‘WHAT on earth was that all about!’**

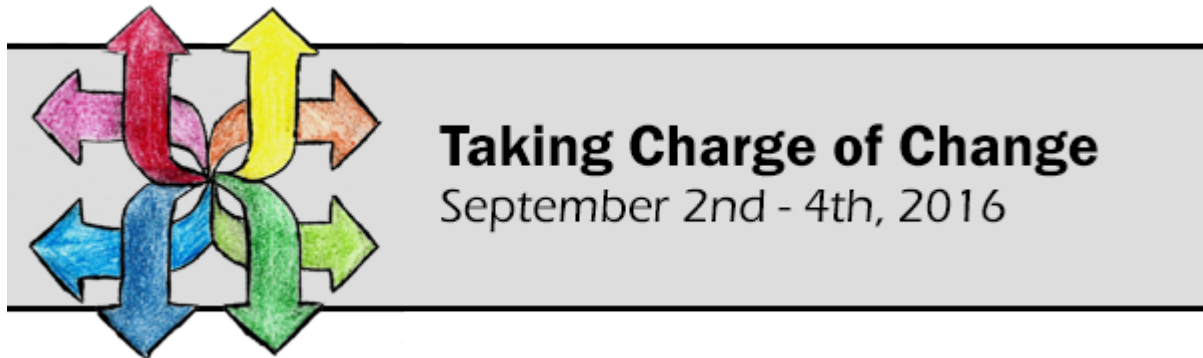

Interestingly I was drawn to look at the KANZ website to glean some guidance for the most appropriate approach for my Conference presentation for you. I was excited and thrilled to see Megan’s words from a Filed case study by Marion called **“Dreaming in Colour”**.

Megan had written “...Up until I was about 5 or 6 yrs I had a happy place, where if I closed my eyes I could make beautiful pictures and colours on a screen. I got a lot of comfort from that. Around the age of 5 or 6 yrs I lost that ability, I closed my eyes one day and could only see black, and all my dreams have always been black with very vague shadows. I missed that ability and comfort terribly right up until my twenties when I finally gave up on it.....The other great thing was, when I woke up at 1.30 am I felt as though a giant knot had been taken out of my body, mainly my tummy....I wrote this email by hand at 3.30 am last night and the amazing thing is I wrote it totally effortlessly....I was learning lessons during the dream”.

Firstly I love interpreting dreams and colour is my “thing” and then I noticed two other hidden keys (or spiritual signs of wisdom) mentioned – age and TIME (this is my other favourite “thing”). My topic **Master ship** was born, so combined with the Masters of Kineseology it gives us all a fabulous opportunity to play!

I will elaborate in detail about the “signs” mentioned above in my conference talk (this is hopefully a great incentive to attend to hear about it all!) but firstly I feel I need to introduce myself and give a little insight as to how I got to doing what I am doing. I refer to myself as a Spiritual Success Mentor since coming out the other side of cancer with experiences from the cocktail of orthodox and spiritual medicine combined with a background as a holistic

motivator, healing practitioner, facilitator, teacher and student of life ex Registered Nurse and Midwife; but to be honest I am a successful being of light and that's the main thing that matters to me as I am doing my best to be the best that I can be right now.

About the author

“ Born into a family of card readers and mediums, healers and board game players, my grandfather a Master chess player; I guess there was no escaping the fact that I have found myself doing what I was born to do.

Through my varied life experiences that encompassed 20 years in nursing and midwifery, I eventually learnt how to ‘find me’ through conscious, heart-based education. Old experiences left a huge gap and it wasn't until I filled the gap with love and kindness for me did I realise it was me who should have come first all along. I'm now in the best state to help myself and others achieve, through persistence. I offer hope to those who flounder ... **as I know, anything is possible.**

“You don't have to be a goody-goody to help people” Zelda

As healers, intuitives, psychics and creatives come in all shapes and sizes; so does what we offer. We don't fit in perceived “boxes” and we recognise that everyone has the capacity to develop their natural talents to be the best they can be if they choose.
